Mohamed El-Darieby,
Associate Professor of Software Engineering,
2000 Simcoe St N.
Oshawa, Ontario

Dear Mr El-Darieby,

Thank you for the opportunity to apply for the position of Software Engineer Intern. I am a fourth-year software engineering student at Ontario Tech University dedicated to improving upon skills and gaining new ones through learning. During my academic career, I have acquired more than 12 months of key volunteer experience in a leadership position at a campus club, allowing me to explore team collaboration and creative thinking. I also regularly volunteer at Go CODE/ENG GIRL which is an event hosted by the Women In Engineering association at Ontario Tech. Here, I successfully apply leadership skills towards guiding young minds in various engineering activities and tasks. Furthermore, I occasionally challenge myself to participate in hackathons where I must work with a team to provide an innovative application in 24 hours. These events simulated creative and problem-solving abilities, facilitating the creation of new concepts and ideas.

The accumulation of my work experience as an Academic Advising Assistant this past two years and working on personal coding projects have widened my range and I have learned valuable professional skills such as communication, project planning, web design, and necessary computer skills. As of recently, I completed an internship at a Software Company that focuses on the innovation and creation of AI and technologies for imaging. Here, I was involved with maintaining GUI applications for medical software, going through code, and performing debugging while working closely with development and QA teams to achieve this. I gained valuable experiences in this role that I believe is a good fit for Square. Whether working on academic, extracurricular, or professional projects, I apply proven leadership, problem-solving, and critical thinking skills, which I hope to leverage into this internship role.

After reviewing my resume, I hope you will agree that I am the type of competent candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will prove me suitable for the position. Please contact me at (226) 606-5960 or via email at toluwanimi.elebute@ontariotechu.net

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,
Tolu Elebute
